

Key Points	Notes
Creating a Repository	<ol style="list-style-type: none"> 1. In the upper-right corner of any page, use the drop-down menu, and select New repository. 2. In the "Repository name" box, type hello-world. 3. In the "Description" box, type a short description. 4. Select whether your repository will be Public or Private. 5. Select Add a README file. 6. Click Create repository.
Creating a Branch	<ol style="list-style-type: none"> 1. Click the Code tab of your hello-world repository. 2. Above the file list, click the dropdown menu that says main. 3. Type a branch name, readme-edits, into the text box. 4. Click Create branch: readme-edits from main.
Making and committing changes	<ol style="list-style-type: none"> 1. Under the readme-edits branch you created, click the README.md file. 2. To edit the file, click . 3. In the editor, write a bit about yourself. Try using different Markdown elements. 4. Click Commit changes.... 5. In the "Commit changes" box, write a commit message that describes your changes. 6. Click Commit changes.
Opening a pull request	<ol style="list-style-type: none"> 1. Click the Pull requests tab of your hello-world repository. 2. Click New pull request 3. In the Example Comparisons box, select the branch you made, readme-edits, to compare with main (the original). 4. Look over your changes in the diffs on the Compare page, make sure they're what you want to submit. 5. Click Create pull request. 6. Give your pull request a title and write a brief description of your changes. You can include emojis and drag and drop images and gifs. 7. Optionally, to the right of your title and description, click the next to Reviewers, Assignees, Labels, Projects, or Milestone to add any of these options to your pull request. You do not need to add any yet, but these options offer different ways to

	<p>collaborate using pull requests. For more information, see "About pull requests."</p> <p>8. Click Create pull request.</p>
Merging your pull requests	<ol style="list-style-type: none">1. At the bottom of the pull request, click Merge pull request to merge the changes into main.2. Click Confirm merge. You will receive a message that the request was successfully merged and the request was closed.3. Click Delete branch. Now that your pull request is merged and your changes are on main, you can safely delete the readme-edits branch. If you want to make more changes to your project, you can always create a new branch and repeat this process.
